

Logitech MX Brio Ultra HD 4K Collaboration and Streaming Webcam

Meet, stream, master with MX Brio's sharp ultra HD 4k resolution video. With 2x better face visibility and 2x finer image details in difficult light(2), AI enhancements, a Logi-designed lens, 70% bigger pixels(1) and our largest webcam sensor yet. Fine-tune your video in Fine Controls(3) and share your work in Show Mode.

WHAT'S IN THE BOX

- MX Brio
- Mount clip with removable adapter
- USB-C to C 3.0 cable
- User documentation

FEATURES

- Ultra HD 4K webcam: meet or stream in 4K resolution at 30fps or 1080p at 60fps, with our most advanced webcam sensor yet, with 70% larger pixels (1) for sharp image quality
- AI-enhanced image quality: Experience 2x better face visibility with finer image details in difficult light (2), with auto-exposure, auto white balance, noise reduction, and autofocus
- Curate Your Image: Fine controls (3) on this Ultra HD webcam let you adjust lighting and white balance, such as ISO, Shutter Speed, Tint, and Vibrance, or let Auto mode take care of it
- Let Them Hear Your Every Word: Integrated dual beamforming noise-reducing microphones minimise background noise with the aid of AI to make sure you are clearly heard
- Share Your Work: Tilt down your Logitech webcam to share notes and sketches on your desk with Show Mode, allowing for better collaboration on calls
- No Sneak Peeks: To protect your privacy between meetings, simply rotate the built-in webcam cover to completely block the web camera
- Compatibility: This USB C webcam works with Windows, macOS, Chrome OS(4) or Linux (4). Certified for Zoom, Microsoft Teams, Chromebook, Google Meet, and Streamlabs
- Customise Your Workflow: Pairing the MX Brio with Logitech software (3) unlocks a bespoke video streaming experience that lets you control your stream through your MX keyboard and mouse

(1) When compared to Brio 4k webcam

(2) Compared to Logitech Brio 4K in difficult light conditions: 2x face exposure in high contrast environments, 2x image definition in low light conditions.

(3) Requires Logi software, available for Windows and macOS at Logitech MX Brio page

(4) Basic webcam support using the USB Video Class (UVC) standard. No Logitech software for other systems than Windows and macOS.
